**Y**edidiahova zbirka nije tek neka obična. Jer on skuplja krhotine granata, čahure od metaka i padobrane od svjetlećih raketa, sve dokaze komplicirane stvarnosti života u Gush Katifu. Desetogodišnji Yedidiah, deseto dijete u obitelji, živi u naselju Morag, najjužnijem u Gush Katifu. Film prati Yedidiahu tijekom sretnog i užurbanog dana, te tijekom noći kada raste strah od padanja granata, terorista, a rastu i planovi o oslobođenju. Evakuacija pojasa Gaze mijenja život Yedidiahu i njegove obitelji.

**Y**edidiah's collection is no ordinary collection. He collects spent mortar shells, bullet casings and lighting parachutes, all evidence of the complicated reality of life in Gush Katif. Ten-year-old Yedidiah, the tenth child in his family, lives on the Morag settlement, which is the southern-most settlement in Gush Katif. The film follows Yedidiah during the happy and busy day time and during the night, when the fear of falling mortars, terrorists and the disengagement plan is intensifying. The Gaza district evacuation changes the life of Yedidiah and his family.
