Šime je odlučio živjeti svoj san. A taj san je prepliviti Atlantik od Francuske do Brazila (oko 8.000 kilometara) na brodu duljine 6,5 metara, isključivo na jedra i bez ikakve komunikacije s kopnom. Kamere montirane na brod jedini su svjedoci Šiminih 27 dana samoće na morskoj pustoši.

Šime decided to start living his dream. His dream was to sail over the Atlantic, from France to Brazil (journey about 8000 kilometers long), on a 6.5 meter-long boat, using sails exclusively, without any communication with the mainland. Cameras on the boat were the only witnesses to the 27 days of Šime's solitude far away at the sea.
