Nasuprot idealiziranim prikazima “male zemlje za veliki odmor” iz službenih turističkih spotova, u kojima domaći ljudi s osmjehom predstavljaju dodatak “Mediteran kakav je nekad bio”, film pokazuje kako “domoroci” iz Igrana u Hrvatskoj doživljavaju i preživljavaju fenomen turizma - od borbe za svakoga gosta, pa sve do svjedočanstava o “galebarenju” iz prve ruke.

On the contrary to the idealized presentations of “The small country for the great vacation” from the official tourist spots, in which the smiling domestic people present the addition of “The Mediterranean as it used to be”, the film reveals the “natives” of Igrane, Croatia, experiencing and living through the phenomenon of tourism, from the struggle for each guest to the first-hand testimonies of seductions.
