Na istočnoj strani splitskog željezničkog kolodvora, odmah uz prugu, žive ljudi u kućama sagrađenim za željezničko osoblje. Ovaj kratki dokumentarac ih prati u jednom kratkom trenutku, koji predstavlja cijeli njihov život.

On the eastern side of the Split Railway Station, next to the very railroad, people live in the houses built for the Railway employees. This short documentary observes a short instance of their living, presenting in it their whole life.
