Prije tri godine Ricki se razvela od svoga muža i sa svojom kćerkom Noor se preselila u stan svog starijeg brata Yakira i njegova partnera Rana. Što je počelo kao privremeno stambeno rješenje postalo je stalno kad su odlučili zajedno donijeti na svijet dijete kao - tri roditelja. Kad maštarija postane stvarnost i Ricki rodi Ya'ara, njihova zajedničkog sina, trio je prisiljen nositi se s mnoštvom izazova i nanovo stvoriti obiteljska pravila za sebe... Trogodišnje dokumentiranje ove neobične zajednice postavlja brojna pitanja vezana za obitelj, ali u isto vrijeme otkriva i jedinstven odnos između brata i sestre. I njihovu želju za ispreplitanjem vlastitih života jedan s drugim - s obzirom na trenutni nesklad između pokušaja da ostvare vlastite neovisne živote i očuvanja njihove povezanosti.

Three years ago, Ricki divorced her husband and, along with her daughter Noor, moved into the home of her older brother Yakir and his partner Ran. What started out as a temporary housing solution became a permanent one when they decided to bring a child into the world - as three parents. When the fantasy becomes a reality and Ricki gives birth to Ya`ar, their shared son, the trio is forced to cope with a myriad of challenges and reinvent the family rules for themselves. Three years` documentation of this extraordinary constellation raises numerous questions concerning the familiar family unit, while at the same time reveals the siblings` exceptional relationship and their desire to intertwine their lives with one another - given the ongoing dissonance between attempting to realize their own independent lives and preserving their symbiotic connection.
