Kao bilo koja lijepa biljka, Daphné cvjeta, otvara se, puni mirisom i gubi lišće. Ali nije ju dopušteno ubrati... Kombinirajući animaciju i neprekidno snimanje, Daphné ili dražesna biljka je dokumentarac koji slika portret nečasne i osjetljive žene koja nam najprije govori o svom tijelu, a onda i o svome srcu. Bez zadržke.

*As any pretty plant, Daphné buds, opens, fills with fragrance and loses leaves. But is never allowed pick ... Combining animation and continuous shooting, Daphné or the lovely specimen is a documentary painting the portrait of an unchaste and sensitive woman who speaks to us first about her body then about her heart. Without waffle.*
