Želiš li Ti biti njihov Predsjednik? Sve nesavršenosti mlade demokracije nadvile su se, poput crnog oblaka, nad mandat Predsjednika ribičke udruge „Štuka“. A on je samo čovjek. Problemi se gomilaju, rješenja kasne, a demokratska većina šuti. Kako u takvim uvjetima ići naprijed? Ili je možda rikverc dobar smjer? Previše je to tereta na plećima jednog čovjeka, pa makar on bio i Predsjednik. U idiličnom okružju netaknute prirode, uz roštilj pokraj drvene brvnare, Predsjednik i članovi udruge pokušavaju locirati probleme i odlučnom akcijom pomaknuti stvari s mrtve točke. Treba popiti gemišt i biti konstruktivan. Oh, demokracijo, tko te samo izmislio?!

Do You want to be their president? All the imperfections of a young democracy hang in the balance like a black cloud over the term of the president of the "Stuka" ("Pike") Fishing Association. And he's only human. The problems are piling up, the solutions are long overdue, and the democratic majority is keeping silent. How to move forward in such conditions? Maybe reverse is a good direction? That's too big a burden on one man's back, even if he's the president. In the idyllic, untouched nature, next to a barbecue by the log-cabin, the president and the members of the association try to identify the problems and break the deadlock with a decisive action. We should drink some wine with mineral water and be constructive about this. Oh, democracy, who ever invented you?!
