Ognjen Miličević; montaža / editing: Zora Branković; producent /  
producer: Sutjeska film Sarajevo; zemlja / country of origin: BiH;  
godina / year of production: 1954.; trajanje / duration: 8 min.

Film govori o teškom životu ljudi s ušća Neretve i njihovoj borbi da stvore obradive površine. Problemi s pitkom vodom i obradivim površinama, te silina Neretve, tjeraju ondašnju vlast da melioracijom močvara pomogne zajednici, stvarajući od pustoga kraja plodnu oazu u moru vode i krša.

*The film speaks about the hard life of the people from the estuary of the Neretva River and their struggle to create cultivable land. The problems with the potable water and cultivable areas, and the intensity of the Neretva, made the government of the time help the community with melioration of the marshes, changing the desolated area into the fruitful oasis in the sea of water and karst.*
